Experience

Elephant Ventures / Senior Software Engineer

Jun 2022 - Present, USA (Remote)

Worked with many established **US companies** and corporations. Used modern tech stack to build **web applications**, highly reliable **data pipelines** and **ETLs**, and **LLM powered products**, and deploy them to the AWS & GCP. Contributed to technical discussions and architecture reviews for US-based clients, ensuring 100% alignment on deliverables across time zones.

Workstreams.ai GmbH / Infrastructure Engineer

Oct 2021 - Jun 2022, Germany (Remote)

Collaborated daily with a Berlin-based product team, actively participating in **agile ceremonies** and contributing to an open, feedback-driven engineering culture. developed core functionality integrating with **Slack**, **MS Teams** and **Google**, while also maintaining **AWS** infrastructure between **EKS**, **S3**, **DynamoDB**, **EC2**, & **Lambda Functions**.

Andela / Senior Backend Engineer

Feb 2021 - Sep 2021, USA (Remote)

Built core features, reusable modules & microservices for MyAndela system **backend**.

Digital Bridges / Engineering Manager

Full Time: Jan 2020–Feb 2021, Cairo, Egypt
10 hrs / week: Feb 2021–Sep 2021, Remote

Led a cross-functional tech team to develop country leading health care **web & mobile apps**, while also drawing a roadmap with the business team. Also, I managed & monitored **cloud infrastructure & CI\CD process**.

Untap Technologies / Full Stack Engineer

Dec 2016 - Dec 2019, Egypt

I developed a SaaS product, using **PHP** and **Angular**, that acted as a competition management system used by large competition organizers in the region such as **Vodafone, Dell EMC, Nile University, 1 Million Arab Coders Initiative** and more. I started as a solo engineer and later led 2 junior engineers.

Upwork / Freelance Full Stack Engineer

Dec 2013 - Sep 2016

I started my career as a freelancer developer at Upwork developing different kinds of applications from a **static website** to an **e-commerce store** along with **WordPress** themes and plugins that were later sold in major marketplaces.

Education & Certification

Amazon / AWS Certified Solutions Architect – Associate
2023

Udacity / Data Engineering Nanodegree
2023

Alexandria University (Faculty of Business) / Computer & Information Systems Bachelor degree
2008 - 2012

Interests & Activities

Cinema LoTR, The matrix & Black Swan are my top favorites

Non-fiction Reading Thinking fast & Slow is my favorite followed by sapiens

Museums I consider Luxor as an open air museum and it's my favorite so far

Travel South Africa is my favorite but I didn't go to many countries stil
